Law Offices of Kenneth A. Wilhelm
445 Park Avenue
9th Floor
New York, NY 10022

My vehicle was hit from behind by a driver who was talking on a cell phone. After the accident, while no visual injury on me could be seen, I began to have severe headaches, ear pain, and a noticeable loss in hearing. My automobile insurance company was of no help and actually canceled payments to my pain management doctors. Local law firms in my area were unwilling to help me citing no-fault boiler plate text.

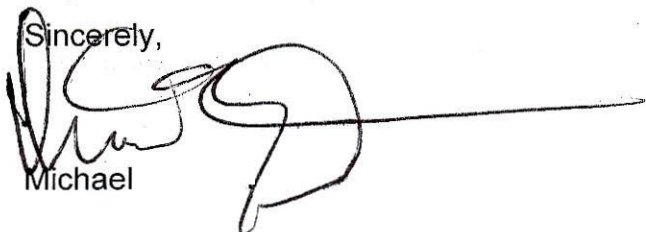

*I called The Law Offices of Kenneth Wilhelm after seeing a television ad detailing their services. An associate came to my house **THAT DAY** to discuss my case. From that point on, every aspect of the case was handled for me. I settled my case with the driver's insurance for a substantial sum in a very short amount of time.*

This was my first automobile accident. I hope to never be in another one. But if I do, I know who I will have representing my interests. Thank you Mr. Wilhelm.
